

Football Academy Ranking System

Professional Web & Backend Integration Guide

System Workflow

- Player Data Entry
- AI Score Calculation
- Match Score Calculation
- Coach Evaluation Score
- Attendance Score
- Weekly Score Calculation
- Grade Assignment
- Trend Analysis
- Player Ranking
- ML Prediction
- Final API Response

AI Score Module

- Inputs: sleep_hours, trained_today, meals_count
- Sleep $\geq 8h \rightarrow 40$ Points
- Sleep $\geq 7h \rightarrow 30$ Points
- Otherwise $\rightarrow 20$ Points
- Training Completed $\rightarrow 40$ Points
- No Training $\rightarrow 0$ Points
- 4+ Meals $\rightarrow 20$ Points
- 3 Meals $\rightarrow 15$ Points
- Less Than 3 Meals $\rightarrow 10$ Points
- Output: daily_ai_score (0-100)

Coach Score Module

- Technical
- Tactical
- Physical
- Mentality
- Decision Making
- Work Rate
- Positioning
- Output: coach_score

Attack Position

- Inputs: shots_on_target, key_passes, goals, assists
- Goal Bonus: +5
- Assist Bonus: +4
- Output: match_score

Midfield Position

- Inputs: pass_accuracy, key_passes, duels, goals, assists
- Goal Bonus: +6
- Assist Bonus: +5
- Output: match_score

Defense Position

- Inputs: defensive_tackles, interceptions, duels, positioning
- Goal Bonus: +8
- Clean Sheet Bonus: +6
- Output: match_score

Goalkeeper Position

- Inputs: saves, shot_stopping, distribution_accuracy
- Clean Sheet Bonus: +8
- Handling Error Penalty: -5

- Output: match_score

Weekly Score Formula

- 50% Match Score
- 25% Coach Score
- 15% Attendance Score
- 10% Weekly AI Score
- Output: weekly_score

Grade Rules

- A = 90+
- B = 80+
- C = 70+
- D = 60+
- F = Below 60

Prediction Module

- Inputs: match_score, coach_score, attendance_score, weekly_ai_score, position
- Model: Random Forest Regressor
- Output: predicted_next_score

Supported Events

- Goals
- Assists
- Clean Sheets
- Goalkeeper Handling Errors

Not Implemented Yet

- Own Goals
- Goals Conceded
- Yellow Cards
- Red Cards

- Penalty Saves
- Penalty Misses
- Errors Leading To Goal
